### FARMONA PROFESSIONAL

**Farmona Natural Cosmetics Laboratory** was established in 1997 in Krakow. The company's philosophy combines the latest achievements of modern cosmetology and the nutritional power of natural plant ingredients. In 2002, the Farmona Professional brand was created, which from the beginning was created exclusively for professionals. Our preparations are still created under the watchful eye of an experienced and passionate team of cosmetologists, pharmacists and technologists. We are one of the leaders of the professional cosmetics market. Our clients value our innovation, high quality and effectiveness of natural cosmetics. We combine the achievements of modern technology with the power of the highest quality natural active ingredients. Farmona Natural Cosmetics Laboratory has also its own research and development laboratory. We are constantly looking for new, innovative formulas and active ingredients, we examine market trends, all so that cosmetics meet the expectations of the most demanding customers. The basis of our products are standardized plant extracts with a high degree of ecological purity. Thanks to that they have a guarantee of high efficiency and safety of use. We manufacture innovative preparations with care and safety, and our modern treatment procedures give the best results in cosmetology salons, SPA centers as well as in home care.

### TARGI KOSMETYCZNE

We are regularly present at the largest and most prestigious cosmetics fairs in Poland and abroad. We invite you to visit our stands, where we present the full range of our products and new products on offer.

### PARTNER KONKURSU MISS POLONIA

W 2023 Farmona Professional była partnerem Konkursu Miss Polonia, a produkty marki były wykorzystywane przez finalistki podczas przygotowań do tego wyjątkowego wydarzenia.

# TRYCHO TECHNOLOGY

NEW

## TRYCHO TECHNOLOGY HAIR STRENGTHENING TREATMENT

## INDICATION

- any type of scalp and hair
- especially recommended for weakened, thin, fine, slow-growing hair with a tendency to fall out

## ACTIVE INGREDIENTS

**TRICHOGEN** - is a unique trichogenic complex. It consists of selected synergistic complexes of botanical, biotechnological and synthetic origin. Improves hair regrowth: growth is more intense and faster in all areas of the head.

**FISION KERAVERG 18** is an innovative formula of plant keratin. It contains 18 amino acids, including soy, wheat proteins and arginine, serine and threonine, the 3 most important amino acids selected to imitate natural keratin, the main building material of hair.

**CAFFEINE** - a natural plant extract from coffee, tea and guarana, stimulates the body, mind and hair. Products with caffeine activate hair growth factors and stimulate hair follicles. It also has a positive effect on the condition of the hair itself. It strengthens and smooths its structure so it becomes more manageable.

## EFFECTS

- visible strengthening and intensive regeneration of weakened hair
- effective reduction of hair loss
- boosting new hair growth

# NEW EYE CONTOUR

## NEW EYE CONTOUR EYE CONTOUR CARE TREATMENT

### INDICATION

- dry skin
- thin around the eyes,
- skin with numerous wrinkles
- skin with dark circles under the eyes

### TREATMENT EFFECT

- smoothing
- firming
- regeneration
- improves skin tone around the eyes
- lightening of dark circles and skin around the eyes
- brightening

### ACTIVE INGREDIENTS

**PHYTIC ACID** - a natural organic compound from the group of mild exfoliating compounds. It exhibits antioxidant and chelating properties, facilitating the removal of excess heavy metals from the body, thus preventing the generation of free radical processes. An effective ingredient in anti-aging and discoloration-reducing treatments.

**MANDELIC ACID** - classified as an alpha hydroxy acid, well tolerated even by sensitive skin. It loosens the bonds connecting the cells of the stratum corneum, accelerates the natural exfoliation process, and stimulates the renewal of the deeper layers. It activates fibroblasts in the dermis, increases collagen and elastin synthesis, reduces melanin formation, and has a de-pigmenting effect.

**SHIKIMIC ACID** - an organic compound from the group of alpha hydroxy acids. It has a very broad and comprehensive effect, removes dead skin cells, causes an increase in hydration, leads to an improvement in firmness and elasticity, regenerates skin with photodamage and sun blemishes. It is very effective, and shows low degree of irritation.

**BETAINE** - is a natural amino acid that has primarily regenerative and moisturizing properties. It strongly smooths the skin, firms and has an anti-wrinkle effect. In addition, it soothes any irritation.

**NIACINAMIDE** - vitamin B3, regulates the process of epidermal renewal, visibly improves skin texture and tone. Stimulates the synthesis of AQP3, hyaluronic acid and collagen. Has antioxidant and immune-stimulating effects.

**CAFFEINE** - it regenerates and has drainage properties, therefore eliminates dark circles under the eyes.

### DURATION

# HYDRA QUEST

## HYDRA QUEST INTENSIVELY MOISTURISING FACE TREATMENT

### PURPOSE

- dry, tired skin, skin requiring regeneration,
- after excessive sun exposure or solarium,

### ACTIVE INGREDIENTS

**HYALURON INTENSE SYSTEM** - specially selected combination of different size of molecules of hyaluronic acid with multi-level hydration and skin firming properties.

**LOW MOLECULAR WEIGHT HYALURONIC ACID** - mucopolysaccharide naturally occurring in our skin which, thanks to small size of molecules, is able to penetrate through the stratum corneum. It binds the water and retains it in deeper layers of skin, filling out wrinkles and improving firmness of the skin.

**AQP 8 BOOSTER** - increases the amount of aquaporin. It stimulates synthesis of collagen thanks to which the skin becomes smooth and firm and the wrinkles are shallower.

**HYDROMANIL™** - specially selected three-dimensional colloidal polysaccharide matrix from Tara tree, rich in oligosaccharides. Thanks to gradual release of active ingredients, provides the skin with a proper hydration that lasts long as well as protects against loss of water.

**COLLAGEN AND ELASTIN** - two most important proteins which are the ingredients of skin, being responsible for proper hydration, elasticity and firmness.

**OLIGOPHYTCORAIL** - extract from red coral algae that activates skin cells, regulates enzymatic catalysis and has energizing properties. Restores vitality and healthy appearance.

# GUARANA SLIM

## GUARANA SLIM ANTI-CELLULITE AND REFRESHING BODY TREATMENT

### INDICATION

- water and fat tissue cellulite
- excessive body fat
- skin in need of detox
- passive lifestyle

### ACTIVE INGREDIENTS

**L-CARNITINE** - a well-known ingredient with anti-cellulite effects. Increases cellular metabolism, preventing the enlargement of adipocytes. It is essential for proper lipid metabolism, causing the conversion of fatty acids into energy.

**GUARANA EXTRACT** extract from a plant known for its energizing and metabolism-stimulating effects, due to its high proportion of guaranine and alkaloids, theobromine and theophylline, adenine, terpenes, tannins, starches, fats, and flavonoids and saponins, which act in synergy with caffeine. These ingredients are responsible for guarana thermogenic properties, which lead to the stimulation of lipolysis, which result in the breakdown of fats into metabolizable products in the tissues. Guarana prevents lipogenesis, or the process of fat reaccumulating in adipocytes.

**IMBIRE EXTRACT** - stimulates circulation, accelerating the removal of toxins, helps fight cellulite.
